

**Policy & Procedure
Removal of Private Road Blockages**

Private Roadway Blockage Policy

It is the policy of Ovid Township to preserve the public safety of all residents within the township. This being said; Ovid Township cannot be held responsible, and is not responsible, for clearing private roadways.

Procedure for Clearing Private Roadways

- In the event of an emergency; Branch County 911 is always the first source for assistance.
- If there is no emergency involved; residents of the roadway should contact private contractors to clear debris.
- It is suggested that property owners on private roadways create an emergency action plan and a non-emergency action plan for the clearing of the roadway depending on the circumstances.
